Italian connection to Wimbledon ...

Why would the Vatican ask an agent of the Italian Government, an air marshal and military intelligence to whisk 4 people from Rome to London?

In our show about the uncle, we come to learn that Emanuela's sister broke off an engagement with fine decent young man who reported to the police about the uncle abusing the sister, now why would she do that?

The uncle ran a bar near the Italian Camera (House of Representatives) and had friends of the Italian State police, we must wonder and ask, was the Orlandi family connected to providing sex slaves to the higher ups in the Church or even their own uncle?

Now, if they flew Emmanuela out of the country, we must ask, how many more did the Vatican have flown out and if to this property or other Vatican properties?

I hope those who are taking our shows and doing the digging will dig and find these things out, and I want them to dig and see how far this goes back and bring this corrupt and evil organization down & take back the Church from these evil men and women!
